BCA Transport Service

Self-organized transport for buyers within the EU (excluding Germany)

1. Certified Carrier

If organizing the transport yourself suits you better, you'll need to hire an independent certified carrier to pick up your purchase at the selling compounds.

2. Vehicle Purchase

Bid on a vehicle in our auctions.

Payment of the Vehicle Invoice and Providing Carrier Information

You will receive an invoice for your vehicle purchase from us. Please promptly provide us with your carrier's details if they are not already known to BCA.

4. Carrier Approval

Your carrier must be approved by BCA the first time and must be an independent third-party carrier with an international transport license, capable of providing CMRs for journey documentation.

To verify this, BCA needs to receive from you:

A completed Carrier Notification Form.

The carrier's official transport insurance policy, valid at the proposed pickup date, ensuring that the transport company is insured for any damages to vehicles on BCA premises, and that your vehicle is insured during transport and delivery.

You can send these documents via email to export.eu@bca.com.

5. Carrier Verification and Pickup Notification

Upon receipt of your vehicle payment and carrier details, BCA will verify your chosen carrier for VAT compliance, which may take a few working days. Once the verification is complete, you will receive a pickup notification, and you will need to notify the selling compound of your arrival at least 48 hours in advance.

6. Vehicle Documents

Your vehicle documents will be sent to you after receiving the completed CMR.

Important Note:

If your purchased vehicle(s) are not picked up within 14 calendar days, transportation will be arranged by BCA, and you will receive the corresponding invoice. Once the transport payment is received, your vehicle will be transported to you.
