

VAT Policy in Italy

Vehicle with VAT Exposed (Gross Price):

If the vehicle is purchased with VAT exposed, a VAT security deposit is required unless you use BCA's automatic transport service.

The VAT deposit, indicated on the invoice, will be refunded once the following documents are provided:

- CMR or proof of export outside the EU
- Buyer declaration
- Insurance or carrier's invoice

Vehicle with Margin VAT:

The vehicle is sold at the declared price, VAT included, and is not eligible for exemption.

However, even for this type of vehicle, it is necessary to send proof of export (CMR for EU countries) to our offices via email at:

documenti.ita@bca.com
